ВСТУП

Навчання іноземної мови у старшій профільній школі не є автономним процесом, а враховує іншомовний комунікативний досвід, набутий учнями на попередніх ступенях освіти. Він удосконалюється відповідно до рівня, визначеного навчальною програмою для 10–11-х класів, і відрізняється від змісту загальноосвітніх курсів першої та другої іноземної мови мовними, мовленнєвими та інформаційними особливостями профільного навчання. Згідно з такою диференціацією виникає потреба в забезпеченні старшокласників, які обрали іноземну мову для поглиблена оволодіння окремими аспектами своєї майбутньої професії, відповідними навчальними засобами, в яких використовуються дидактично, психологічно і методично доцільно дібрани методи, форми і види навчання, що узгоджуються як із сучасними технологіями оволодіння іншомовним спілкуванням (компетентнісним, комунікативно-діяльнісним, особистісно орієнтованим, культурологічним підходами), так і з профілізацією його змісту залежно від обраного профілю навчання. Такими засобами є елективні курси (курси за вибором), яким відводиться провідна роль в урізноманітненні інформації, презентованої іноземною мовою, і зміст яких відбиває певну модель профільно орієнтованої діяльності старшокласників.

Елективні курси з іноземних мов – обов'язкові навчальні предмети, що є засобами забезпечення варіативного компонента змісту навчання. Вони розширяють і поглинюють його додатковою профільно зорієнтованою інформацією, обираються самими учнями відповідно до їхніх інтересів, уподобань і потреб, реалізуються за рахунок шкільного компонента навчального плану. Елективні курси мають забезпечувати наступність змісту загальної шкільної та професійної іншомовної освіти та сприяти розвитку індивідуальної освітньої траєкторії старшокласників.

Мета елективних курсів з іноземних мов полягає у збагаченні іншомовного комунікативного досвіду старшокласників шляхом ознайомлення з новими галузями науки в межах обраного профілю відповідно до їхніх комунікативних намірів щодо вибору майбутньої навчальної/професійної діяльності, пов'язаної зі знанням іноземної мови.

Відповідно до мети елективні курси з іноземних мов виконують такі основні завдання:

- 1) розширяють зміст базового курсу іноземної мови, вивчення якого здійснюється на загальноосвітньому рівні;
- 2) поглиблюють і модифікують зміст профільного курсу іноземної мови з метою його засвоєння на рівні, необхідному для задоволення різноманітних пізнавальних інтересів старшокласників;
- 3) забезпечують створення й усвідомлення цілісної картини світу;
- 4) забезпечують прогресивний розвиток індивідуальної освітньої траєкторії учня старшої школи;
- 5) сприяють професійному самовизначення старшокласників;
- 6) сприяють подальшому розвитку ключових і предметних компетентностей школярів, забезпечують комплексну реалізацію комунікативної, розвивальної, виховної та освітньої цілей навчання.

Упровадження елективних курсів у практику старшої школи урізноманітнює, розширює і поглиbuє зміст шкільної іншомовної освіти новими засобами і технологіями їх використання, сприяє її адаптації до європейських стандартів.

Основними засобами оволодіння змістом елективних курсів є навчальні посібники. Їх ефективність, зокрема здатність сприяти виконанню вимог навчальних програм, розвитку пізнавальних інтересів і комунікативних потреб старшокласників, різnobічно залежить від дидактичних і методичних підходів, визначених для побудови їх змісту і структури. Номенклатура елективних курсів визначається навчальним закладом у межах варіативного компонента змісту освіти, зважаючи на інтереси та потреби школярів, кадровий потенціал навчального закладу, засоби навчання тощо.

Матеріали, які пропонуються в посібнику «Світ без кордонів», є фрагментами змісту навчальних посібників елективних курсів з англійської, німецької, іспанської, французької мов, підготовлених науковими співробітниками відділу навчання іноземних мов Інституту педагогіки Національної академії педагогічних наук України.

Призначення цього видання – дати уявлення про цілі, зміст і структуру навчальних посібників елективних курсів, які рекомендуються усім тим, хто планує організовувати профільне навчання старшокласників, пов'язане з іноземною мовою.

3. A. Read the text. Mark the sentences below the text as true or false.
Then, correct the false ones according to the text.
- B. Speak about popular British musicians and music genres.

Music in Britain today. Britain is more famous for pop music than it is for classical composers or jazz musicians. Names such as *The Beatles*, *the Rolling Stones*, *Led Zeppelin*, *Pink Floyd*, *Elton John*, *George Michael* and *The Spice Girls* are known world wide but little do people know of other musicians not in the pop world. In Britain, most youths listen to punk, garage, house, rock, pop and R&B (such as *McFly*, *JLo*, *Xtina*, *Beyonce*, *Pink*, *Britney*, *Justin Timberlake*, *Mis-teeq*).

Nowadays young people listen to many different music styles and genres. So the musical life in England is various and diversified. One of the most popular modern music genres is *indie*. Derived from "independent", it describes the small and relatively low-budget labels on which it is released and

the do-it-yourself attitude of the bands and artists involved. Indie rock has been identified as a reaction against the “macho” culture that developed in alternative rock. “Arctic Monkeys” is a famous indie-rock band.

Pop music is also popular nowadays in Great Britain. Mika is a world famous singer-songwriter. Other popular modern music genres are hardcore and post-hardcore. Hardcore punk typically features very fast tempos, loud volume, and heavy bass levels, as well as a “do-it-yourself” ethic. Post-hardcore includes screaming as the major vocalization technique within most songs, with melodic singing at other times. Enter Shikari combine post-hardcore and heavy metal sub-genres with elements of various electronic genres. They are quite popular not only in GB, but also in the USA and in Ukraine.

Notable British musicians achieving global success at the beginning of the 2010s include “One Direction”, Adele and “Mumford & Sons”.

Adele’s album “21” became the UK’s best-selling album of the 21st century and its 4th best-selling album of all time in 2011, certified platinum 16 times. During the same year, the Grammy-award winning album “Back To Black” by British singer Amy Winehouse became the UK’s second best selling album of the 21st century and its 13th best-selling album of all time following her death in 2011, certified platinum 11 times. In 2014, the UK’s top 10 albums were all by British artists, including releases by Ed Sheeran, Sam Smith, George Ezra, Paolo Nutini, Coldplay and One Direction. Sam Smith’s debut album “In the Lonely Hour”, released in 2014, peaked at number one in the United Kingdom, New Zealand and Sweden, and number two in Australia, Canada, Denmark, Ireland, Norway and the United States. In the same year, Ed Sheeran’s second album “X” charted at number one in twelve countries, topping both the UK Albums Chart and the US Billboard 200, and reaching the top 5 in eleven other countries. Also in 2014, One Direction’s album “Four” reached number 1 in the UK, became the top charted album on iTunes in 67 countries and debuted at No. 1 on the Billboard 200 chart in the US. As a consequence, One Direction became the first band to reach number one on the US Billboard chart with each of their first four albums, British or otherwise.

1. Britain is more famous for classical composers than it is for pop music.
2. Nowadays young Brits listen to punk, garage, house, rock, pop and R&B.
3. The music genre “indie” refers to the music of India.

- B He found a vacancy in a food company and applied for a job there
- C He was dismissed and was unemployed again

- E Mike was unemployed and was looking for a job
- F He had to do hard and work overtime
- G But then he had an argument with his boss
- H He had an interview and got the job

b) Reproduce the story looking at the pictures.

Task 3. Read the text.

ARE YOU HAPPY WITH YOUR WORK-LIFE BALANCE?

Although majority of people say that they work “for the money”, salary isn’t actually the only thing that they think about. Recently, research has shown that people consider many different factors to be of importance when they make their career choice. A worldwide survey of students showed that after graduation they would be looking for jobs that allowed them to balance their personal lives with their work lives, so it’s not always a full-time job. They are ambitious and optimistic about their career prospects, and look at their working future in a different way to their parents.

For example, **Katsuro** works as a shop assistant in one of big supermarkets in Japan. He says: I work part-time and I am fully satisfied with my life. I’ve chosen a lifestyle that gives me enough money and quite a lot of free time. But my father, on the other hand, works more than 70 hours a week for a car company. Sometimes he has to work night shifts. I think, it’s madness. Lots of Japanese people do overtime. There’s an expression in Japanese, *karoshi*, which means “to die because you work too hard”. A lot of people in Japan get ill or die because they work too much. I think my generation is different. We don’t want our lives to be ruled by work. I work a few hours a day and get good wages. I spend the rest of my time seeing my friends and playing baseball.

It’s not just the younger generation who think like this either. There has been an increase in the number of middle-aged employees who are moving away from highly-paid executive positions into less stressful jobs.

David is a project manager for a big software company in the USA. He says: Work conditions in our company are great. Our office is in a park zone; there's no dress code. Also there's a canteen and a gym. So the staff don't have to worry about their lunch and can regularly keep fit. But personally I'm not satisfied with my work-life balance at all. I work overtime – at least 50 or 60 hours a week. So I don't have much time for myself or to see my children. I communicate with my wife by leaving messages on the fridge. We almost don't see each other because we work different hours. Our work gets extremely stressful when we have deadlines – sometimes I and my team even skip our lunch. A few weeks ago I missed my son's birthday because it was another project deadline. I earn a lot of money but I don't have enough time for my private life. Is it worth it? I want to live for myself not when I retire but now.

Task 4. Answer the following questions:

1. Why don't many young people want to have a full-time job?
2. What does the Japanese phrase 'karoshi' mean?
3. What is the difference between young and old generation in Japan, according to Katsuro?
4. What are the working conditions in David's company?
5. Is David satisfied with his work-life balance? Why?
6. How does David's work harm his family life?
7. Which of the two situations is more typical for your country?
8. Would you prefer a part-time or a full-time job?

▲▲ Task 5. Work in groups of four.

- a) Discuss which advantages and disadvantages David and Katsuro get from their lifestyles. Think of different aspects and organize your ideas in a table. There are some ideas in each column to help you get started.

Katsuro		David	
Positive	Negative	Positive	Negative
- spends a lot of time with friends - ...	- cannot spend holiday abroad - ...	- can afford to live in a house with a pool - his children can study in prestigious colleges - ...	- problems with health - ...

b) Which lifestyle is more attractive for you? Why?

Task 6. Match the words to their definitions:

- | | |
|--------------|--|
| 1. executive | a) the latest time or date by which something should be completed |
| 2. deadline | b) a person or a company that hires people and pays money for their work |
| 3. to retire | c) payment for work or services made to workmen on a daily, hourly or weekly basis |
| 4. staff | d) a person who is hired to work for a company in return for payment |
| 5. employer | e) all people who work in a company |
| 6. employee | f) a fixed monthly payment for professional or office work |
| 7. salary | g) a person who is responsible for running a company |
| 8. wage(s) | h) to leave your job because of your age e.g. 65 |

Task 7. Complete the text with the given words.

conditions	hours	part time	temporary
experience	job	qualifications	work

Roger: The company *canteen / kitchen* is great.

Doug: Oh, I'm so busy that I often *skip / jump* lunch.

Task 9. Discussion

1. Some people say they would like to 'leave the rat race'. What do you think they mean?

3. What can companies do to ensure their staff have good work-life balance?
4. Why do you think some people become workaholics?
5. Do you think it is harder for men or women to achieve a work-life balance? Why?

UKRAINE IN THE WORLD

Unit 1. 3 UKRAINE IN SYMBOLS

Terms to Know

- heritage
- herald
- deceased
- the Trypillian culture
- resurrection
- snowball tree
- pottery
- chord
- (guelder-rose)
- immortal
- embroidery

Main Idea

Have you ever been to Trypillia? Do you know what does it famous for? Why do you think this place can be interesting for us? Most likely, this culture brings to our minds the core insight of Ukrainian culture.

This section describes symbols (national, plant, bird and animal) of Ukraine, their history development and people attitude to them.

Reading

Each nation has its own system of symbols that is transmitted from one generation to another as **heritage**. Symbols are the part of human history.

In the III-d millennium of BC

the Trypillian culture extended in the Right Bank Ukraine. The keepers of this culture were at a high level of their economical and spiritual development. Many Trypillian symbols have been traced into Ukrainian culture. Trypillians were aware of the world – the Universe – as the unified and indivisible system, and depicted it in their paintings. This vision of the World is appropriate for the Ukrainian folk art.

Modern Ukrainian **pottery** in its form and painting are similar with Trypillian tableware. The picture of Trypillian Life Tree is one of the most

favourite Ukrainian plots, particularly in **embroidery**. The symbol of the Mother – Berehynia – became the most common in numerous folk embroideries: towels, shirts and ornaments.

Since ancient times an egg (**Pysanka**) was a symbol of the **immortal** soul, life, the Sun and the Universe. It is one of the most popular Ukrainian folk symbols for many centuries. Birds are **heralds** of spring **resurrection**. So their eggs are the emblem of the sun, life and rebirth. Ukrainian Easter eggs have over 100 symbolic images. For example, a curve means the thread of life, eternity of the sun movement, a symbol of the beginning and the end. A **chord** of egg colours is rich: red – the joy of life and love; yellow – the moon and the stars, the crop; green – wealth of the plant life; blue – the Sky and health; bronze – the Mother Earth; black and white – respect for **deceased relatives** and their souls. People belief for the amazing power of Easter eggs was wide. Pysankas were used as a symbol of love, and they were given to the beloved. Egg symbols have been changed gradually with the Christianity introduction. It became a symbol of joy and faith for the Jesus Christ **Resurrection**, as a symbol of forgiveness.

The life of Ukrainian is connected with Rushnyk. Bread and salt on embroidered towels is a high sign of hospitality. Rushnyks always marked the appearance of a child in a family, marriage or guests greeting. A father, a son and a husband were sent on a long journey with it. Rushnyks embroidery which is varied depending on their functionality is deeply symbolic. Colours and patterns of Rushnyk talk about love and eternal life.

For Ukrainian people a wreath is a traditional talisman. Not only the girls are decorated with it, but it is often used as the element of house decoration. Wreath images were always on clothing, tablecloths and towels. Many various flowers are in the Ukrainian wreath. There can be up to 12 different flowers: roses, white lilies, cornflowers, heathers, field bells, the laurel, mallows, peonies, chamomiles, the strawflowers and **snowball flowers or guelder-rose** grapes. Each flower symbolizes something special. Wedding wreath, even paper, must contain a symbol of true love – a periwinkle. A wreath is tied with

and on the other – a purple ribbon – a symbol of mind, then a crimson ribbon – a symbol of sincerity and a pink one – a symbol of wealth. The edges of the wreath were tied with white ribbons – a symbol of innocence. The sun was embroidered on the bottom of the left ribbon, and the moon – on the right.

Almost all nations have favourite plant symbols (See **Resource Folder**). A willow is a symbol of beauty, the continuity of life. On a Palm Sunday week the willow is consecrated. These branches are served as a talisman at homes. A periwinkle is an evergreen symbol of eternity. It hides the powerful healing force – to win serious illness. That is why the people gave it to their love. Kalyna (a guelder-rose) is a symbol of beauty, love and happiness. It was always planted near the houses; wedding loaves and the bride wreath were decorated with it. A sunflower was a symbol of the sun, life and joy.

The most favourite bird of Ukrainians is a stork that symbolizes love of parents, family values. This is a symbol of family well-being, peace and love for the motherland. There is a happy home where the storks build their nest. A stork is a harbinger of spring and nature rebirth. People say that it brings children to families.

State symbols of modern Ukraine are an emblem (a coat of arms) and a flag. The Great State Emblem of Ukraine is a trident – Small State Emblem of Ukraine. Trident is a symbol of power and sovereignty. It was used as a coat of arms of Rurik dynasty. Trident first appeared in Sviatoslav Ihorevych print. Later it was on Grand Duke Vladimir pieces of silver. Such coins were also found on the churches bricks and on the remains of fortresses, household items, stamps and so on.

The national flag of Ukraine is a banner of two equal horizontal bands of blue and yellow. Blue – the colour of the clear sky and water. Yellow – the colour of the sun and rye. Yellow and blue colours were used on the

coloured ribbons. In the middle there is a light brown ribbon – a symbol of land, on the left and right – two yellow ones – a symbol of the sun, followed by light and dark green – symbols of nature, beauty and youth. Then the light and dark blue – symbols of water and the sky. Then, on the one hand – an orange ribbon – a symbol of bread,

for ethnicity and national dignity. They remind us about our native language, family and country.

3 Lesen Sie den Steckbrief auf Seite 31. Fragen Sie und antworten Sie.

4 Benutzen Sie die Informationen aus dem Steckbrief und stellen Sie Deutschland vor.

Deutschland heißt offiziell die Bundesrepublik Deutschland.

Die Bundesrepublik ist ein

Deutschland liegt im Herzen Europas zwischen der Nord- bzw. Ostsee im Norden und den Alpen im Süden. Die größte Ausdehnung von Norden (Sylt) nach Süden (Oberstdorf) beträgt ungefähr 880 km, von Westen (Aachen) nach Osten (Görlitz) ca. 630 km. Mit einer Fläche von etwa 357 340 km² ist

Deutschland kleiner als beispielsweise Spanien oder Frankreich. Trotzdem sind Landschaften und Wetter sehr abwechslungsreich. In Deutschland ist es nicht so heiß und sonnig wie in den südlichen Ländern Europas, dafür sorgt der regelmäßige Regen für grüne Wiesen und Wälder. In Deutschland gibt es viele Laub- und Nadelwälder.

Die abwechslungsreichen Landschaften reichen vom Norddeutschen Tiefland über die Mittelgebirge bis hin zu den Alpen in Süddeutschland. Die große Vielfalt der Landschaften macht Deutschland nicht nur für ausländische Touristen, sondern auch für Deutsche zu einem attraktiven Reiseland. Neben den Städten mit ihren Sehenswürdigkeiten sind Bayern, die Ost- und Nordsee, der Bodensee und der Schwarzwald besonders beliebte Reiseregionen.

5 Lesen Sie den Text und beantworten Sie die Fragen.

Wo liegt Deutschland?

Wie viele Kilometer sind es von Norden nach Süden?

Ist Deutschland das größte Land der Europäischen Union?

Wie ist das Wetter in Deutschland?

Welche Landschaften gibt es in Deutschland?

Machen die Deutschen gern Urlaub in Deutschland?

Welches sind die beliebtesten Reiseziele in Deutschland?

6 Lesen Sie den Text und betiteln Sie ihn.

Die deutschen Landschaften sind außerordentlich vielfältig. Niedrige und hohe Gebirgszüge wechseln mit Hochflächen, Hügel-, Berg- und Seenlandschaften

und weiten Ebenen. Von Norden nach Süden ist Deutschland in fünf große Landschaften geteilt: Das Norddeutsche Tiefland prägen seenreiche, hügelige Landschaften, die sind von Heiden, Mooren und fruchtbaren Böden hin zur Mittelgebirgsschwelle durchsetzt. Zu den Tieflandbuchten gehören die Niederrheinische, die Westfälische und die Sächsisch-Thüringische Bucht. Den Küsten vorgelagert sind in der Nordsee zahlreiche Inseln wie Borkum, Norderney, Sylt und Helgoland. In der Ostsee liegen Rügen, Hiddensee und Fehmarn. Die Ostseeküste ist teils sandige Flachküste, teils felsige Steilküste. Zwischen Nord- und Ostsee liegt das niedrige Hügelland der Holsteinischen Schweiz.

Schwarzwald

Die Mittelgebirgsschwelle trennt den Norden vom Süden Deutschlands. Das Tal des Mittelrheins und die hessischen Senken dienen als natürliche Leitlinien des Nord-Süd-Verkehrs. Zu den Mittelgebirgen gehören Hunsrück,

Eifel, Taunus und Westerwald. Im Herzen Deutschlands findet sich die Gebirgsinsel des Harzes. Im Osten liegen unter anderen der Bayerische Wald, das Fichtelgebirge und das Erzgebirge. Am Rande der Oberrhinischen Tiefebene liegen der Schwarzwald, der Spessart und die Schwäbische Alb. In einem engen Tal zwängt sich der Rhein, die wichtigste Verkehrsachse in Nord-Süd-Richtung, durch das Rheinische Schiefergebirge.

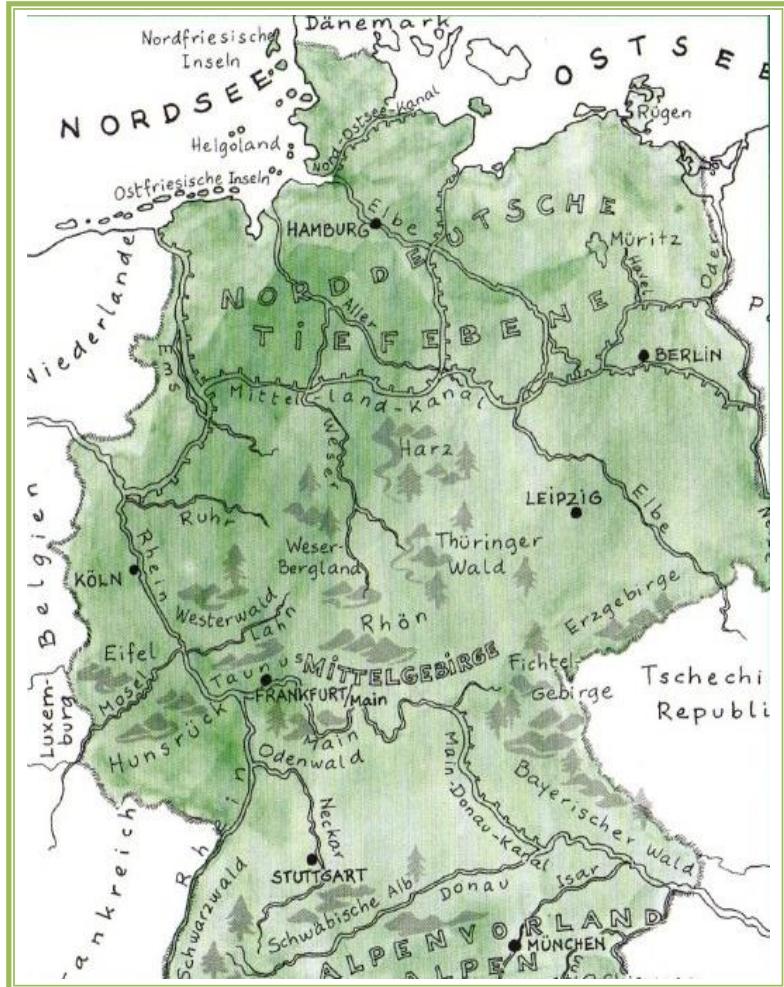

Oberstdorf / Alpen

Das Süddeutsche Alpenvorland ist durch Hügel und große Seen im Süden geprägt, dazu weite Schotterebenen, das Unterbayerische Hügelland und die Donau niederung. Charakteristisch für diese Landschaft sind Moorgebiete, kuppenförmige Hügelketten mit Seen (Chiemsee, Starnberger See) und kleine Dörfer. Der deutsche Teil der Alpen zwischen dem Bodensee und Berchtesgaden umfasst nur einen schmalen Anteil dieses Gebirges. Er beschränkt sich auf die Allgäuer Alpen, die Bayerischen Alpen und die Berchtesgadener Alpen. Eingebettet in die Bergwelt der Alpen sind malerische Seen, wie zum Beispiel der Königssee bei Berchtesgaden, und beliebte Fremdenverkehrsorte wie Garmisch-Partenkirchen und Mittenwald.

7 Beantworten Sie die Fragen in vollständigen Sätzen.

- Wie viele Großlandschaften gibt es in Deutschland? Wie heißen sie?
- Was ist das Besondere an dem Norddeutschen Tiefland?
- Wie heißen die größten Inseln der Nord- und Ostsee?
- Was gehört zu den Mittelgebirgen?
- Wodurch ist das Süddeutsche Alpenvorland geprägt?

- f) „Ammerchiemstarnbergerboden“ – Welche vier Seen im Alpenvorland stecken in diesem Namen?
- g) Kennen Sie die beiden höchsten Berge in den deutschen Alpen? Wie hoch sind sie?

- 8** Benutzen Sie die Karte und die Informationen aus dem Text und stellen Sie die Großlandschaften Deutschlands vor.

CHAPITRE 8 LA CUISINE FRANCAISE

«Parler de cuisine – de cuisine française – c'est parler de joie de vivre, de légèreté, d'optimisme et de plaisir – des idées tout à fait centrales pour l'image de la Destination France».

Alain Ducasse

*Le repas au restaurant est toujours bon avec du vin,
Mais quand on mange à la maison le repas est toujours bon.*

Exercice 1. Lisez et traduisez le dialogue.

Situation: Jacques et Isabelle montrent Paris à leurs amis russes. Ils sont dans le quartier du Marais. A l'heure du déjeuner, ils discutent où aller manger un morceau.

A.: Écoutez, mes amis! Cette promenade m'a donné une faim de loup. Tiens, voici un MacDonalds ; si on y allait?

J.: Quelle drôle d'idée! Tu es sérieux? Tu veux vraiment qu'on y aille?

K.: Et pourquoi pas? Chez nous, à Moscou, nous y allons souvent, surtout le dimanche, et cette année notre fille y a fêté son anniversaire. Deux clowns animaient la fête et les enfants étaient aux anges.

I.: Mais c'est de la nourriture de mauvaise qualité! Si vous ne voulez pas avoir de problèmes de santé je vous conseille vivement de ne pas y aller! Rien qu'a sentir cette puanteur de friture, cela me donne la nausée!

K.: Il y a peut-être un autre fast food près d'ici? Où bien, faut-il parler de restauration rapide? J'ai appris que vos académiciens conseillent d'employer plutôt cette expression.

I.: Oui, c'est vrai, mais les gens n'aiment pas, c'est trop long. On dit toujours fast food, ou bien restopouce, il y a aussi des fast foods français: Pomme d'api, La Brioche dorée...

K.: Moi, je mangerais bien une crkpe ou un sandwich, ou bien une viennoiserie; comme ça, sur le pouce.

J.: D'accord, mais où allons-nous nous asseoir? Moi, j'ai les jambes coupées!

I.: Évidemment, tu n'as pas l'habitude de marcher! Toujours en voiture !

J.: Voici un resto bien sympa. Voyons le menu du jour. 11 euros, ce n'est pas trop cher. Comme plat de résistance, les tripes à la mode de Caen! Y a-t-il des amateurs?

A.: Euh... non. Pas moi, en tout cas.

I.: Je connais un petit restaurant indien, une pure merveille! On peut y manger du poulet au curry, du riz basmati bien parfumé, le tout accompagné de bière indienne. Et ce n'est pas cher du tout.

J.: Et il faut encore marcher? Oh non, pitié! Je suis à bout!

I.: Je propose une solution bien simple et très parisienne: le bistrot.

A.: Le bistrot? Et on y mange ? Je croyais qu'on y prenait seulement un verre.

J.: Bien sûr : On y boit un café ou un demi, mais on peut aussi y manger un morceau. Nous pourrions commander un croque-monsieur ou un croque-madame, avec un oeuf dessus. C'est très bon, c'est chaud et nourrissant. Et on sert aussi de la salade verte avec. Tiens, en voici justement un. Prenons place à la terrasse, comme cela vous pourrez observer le spectacle de la rue.

K.: À la terrasse? En cette saison? Je sais qu'à Paris novembre est plus clément qu'à Moscou, il ne gèle pas encore, mais tout de même!

I. : Ne t'en fais pas, Katia, la terrasse est chauffée. Et puis nous commanderons aussi du café brûlant.

J.: Garçon, s'il vous plaît! Nous avons choisi.
